

# An Esoteric Look at Dynamind

by Jim Fallon

The Dynamind Technique follows the Huna manifestation process of *Haipule*.

Here is how Dr. King breaks down the word *Haipule*, and I will show how these steps relate to the Dynamind Technique, a technique that programs the Ku very well:

**Ha**, meaning "life, breath, spirit."

This is the *pikopiko* step of Dynamind.

Wisdom traditions state that when the breath awareness is focused in the center part of the spine, called the middle pillar in Kabbala, the fire channel or *susumana* channel in yoga, this *pikopiko* activates this fire channel, which then acts like an electromagnet to draw into it "karmic seeds" and roasts them in this "fire" to remove them or "deactivate" them. The Dynamind hand position, or *Mudra*, is a variation of the *Gomukha Mudra*, used for uniting the body and mind.

**I**, meaning "to speak."

These are the Dynamind Statements.

The most "occult" power that you have is the power of speaking things into **existence**. You know the story, "In the beginning God spoke", an idea that is shared by most all spiritual texts from around the world. Speak the words that describe what you want, aloud or silently. Your Ku is always listening to what you tell yourself, aloud or mentally. It will then process these words to help give these thoughtform words matter. It changes your aura vibration to match what is that you are saying to draw to you what you want.

**Pu**, meaning "to issue forth, to appear like smoke." These are the SymKey processes.

This is a poetic description of imagination. Imagine what you want in as much sensory detail as you can. But you must imagine it as something that has already happened. We know this, because wisdom traditions teach this. Here is an example from the Bible:

Mark 11:24 Therefore I say unto you, What things so ever ye desire, when ye pray, believe that ye receive [them], and ye shall have [them].

**Le**, a short form of *lele* meaning, basically, "to move." This is where the actual tapping on specific points comes in.

The key here is that while tapping, assume the feeling in your body, as you tap, of what it feels like to already have the desired intent. The Ku is monitoring your feelings always, and when it "receives" this feeling, it takes the feeling, matches its vibration, and gives material form to this feeling in this earth plane.

Mark 23 : For verily I say unto you, That whosoever shall say unto this mountain, “Be thou removed, and be thou cast into the sea”; and **shall not doubt in his heart**, but shall believe that those things which he saith shall come to pass; he shall have whatsoever he saith.

So to make Dynamind more effective, assume the feeling in your body of the end result of what you want as if it had already occurred, while you do the tapping on your body, which re enforces the "feeling" state in your body!
